

2018 Transportation Technology Deployment Report:

Dallas-Fort Worth Clean Cities

Expanded Edition

March 2019

The U.S. Department of Energy's (DOE) Clean Cities program advances the nation's economic, environmental, and energy security by supporting local actions to reduce petroleum use in transportation. A national network of nearly 100 Clean Cities coalitions brings together stakeholders in the public and private sectors to deploy alternative and renewable fuels, idle-reduction measures, fuel economy improvements, and new transportation technologies, as they emerge.

Every year, each Clean Cities coalition submits to DOE an annual report of its activities and accomplishments for the previous calendar year. Coalition coordinators, who lead the local coalitions, provide information and data via an online database managed by the National Renewable Energy Laboratory (NREL). The data characterize membership, funding, projects, and activities of the coalitions. The coordinators also submit data on the sales of alternative fuels, deployment of alternative fuel vehicles and hybrid electric vehicles, idle-reduction initiatives, fuel economy activities, and programs to reduce vehicle miles traveled. NREL and DOE analyze the data and translate them into petroleum-use and greenhouse gas reduction impacts for individual coalitions and the program as a whole. This report summarizes those impacts for Dallas-Fort Worth Clean Cities.

To view aggregated data for all local coalitions that participate in the Clean Cities program, visit cleancities.energy.gov/accomplishments.

2018 Gallons of Gasoline Equivalent Reduced

2018 Greenhouse Gas Emissions Reduced

Historical Gallons of Gasoline Equivalent Reduced

Historical Greenhouse Gas Emissions Reduced

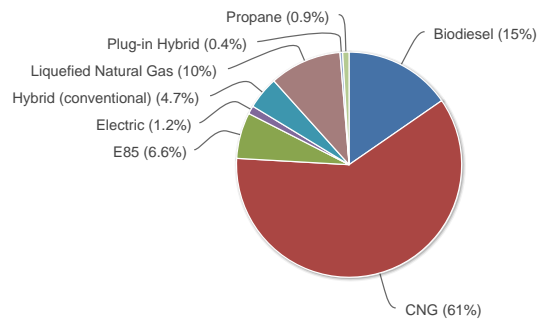

2018 Gallons of Gasoline Equivalent Reduced by Fuel Type for Alternative Fuel Projects

21,894,733 gallons

2018 Greenhouse Gas Emissions Reduced by Fuel Type for Alternative Fuel Projects

24,882 tons

Criteria Pollutant Emissions Reduced

Criteria pollutants are chemicals that have been linked to human health effects and therefore regulated in the Clean Air Act of 1970. The Clean Cities annual report calculates them using the same assumptions and default values as AFLEET 2016, with some adjustments to fit specific data inputs. They are quantified at vehicle tailpipes, as those are the emissions contributing to the regulated “ambient” air quality of a given city. This means that they omit emissions from sources such as electric power plants, refineries, and biofuel feedstock farms (where emissions are sufficiently removed from populations in order to minimize health effects). When a specific pollutant surpasses a given threshold for a given area, the area is considered to be in “nonattainment” for that pollutant. Nonattainment areas for given pollutants can be viewed at www.epa.gov/green-book. To learn more about what your emissions numbers mean, please take the Understanding Emissions or Emissions Compliance courses at [Clean Cities University](http://CleanCitiesUniversity.org).

Reductions by Fuel Type*	NOx	VOC	CO	PM10	PM2.5
Biodiesel	0 lb	0 lb	0 lb	0 lb	0 lb
CNG - Compressed Natural Gas	551,844 lb	275 lb	-2,169,185 lb	34 lb	27 lb
E85 - 85% Ethanol	44 lb	90 lb	-21 lb	0 lb	0 lb
Electric (all-electric)	1,585 lb	264 lb	4,472 lb	13 lb	12 lb
Hybrid (conventional)	137 lb	353 lb	0 lb	0 lb	0 lb
LNG - Liquefied Natural Gas	168,030 lb	0 lb	-681,214 lb	0 lb	0 lb
Plug-in Hybrid	1,805 lb	47 lb	397 lb	8 lb	7 lb
Propane	30,018 lb	-4,087 lb	-107,555 lb	73 lb	26 lb
VMT Reduction (Diesel)	10 lb	0 lb	1 lb	0 lb	0 lb
VMT Reduction (Gasoline)	127 lb	203 lb	3,652 lb	51 lb	11 lb
Total:	753,602 lb	-2,854 lb	-2,949,454 lb	180 lb	84 lb

* This table accounts for criteria pollutants from alternative fuel vehicle, hybrid vehicle, and VMT reduction projects only. It does not include fuel economy, idle reduction, or off-road projects. Negative values indicate an increase in emissions.

COALITION

Dallas-Fort Worth Clean Cities - TX

<http://www.dfwcleancities.org>

Designated: 07/25/1995

Boundaries: Counties: Collin, Dallas, Denton, Ellis, Erath, Hood, Hunt, Johnson, Kaufman, Navarro, Palo Pinto, Parker, Rockwall, Somervell, Tarrant and Wise; Cities of Dallas and Ft. Worth

COORDINATORS

	Address	Telephone	Fax
Lori Clark	North Central Texas Council of Governments 616 Six Flags Dr, P.O. Box 5888 Arlington, TX 76005-5888		
<hr/>			
Number of coordinators			1
Coordinator(s) hours per week on Clean Cities			25 hours
Other staff hours per week on Clean Cities			150 hours
How long have you been the coordinator?			2 years

OPERATING INFORMATION

Coalition organizational structure	Hosted in a planning organization (COG/MPO/ RPC)
<hr/>	
Stakeholders	
Number of stakeholders	181
Number of private stakeholders	102
Does the State Energy Office provide any financial support to the coalition or stakeholders?	No
How would you rate the quality of the data on your survey?	Excellent
How do you obtain most of your data for the survey?	Coalition records, Paper, e-mail, or spreadsheet questionnaire to stakeholders, Phone calls to stakeholders
<hr/>	
Has your coalition registered with www.grants.gov ?	Yes

2018 Outside Funding

Stakeholder dues collected	\$0
How much funding is obtained from other sources to cover coalition operating expenses?	\$2,300
Non-DOE or ARRA grant and matching funds spent in 2018	\$287,967
Total non-DOE or ARRA funding in 2018	\$290,267
